SOLARPAD is a unique and completely new "TANKLESS" solar hot water system. It is also the most compact solar hot water system available. Pipe cold water into the "tankless" collector inlet and let your SOLARPAD do the rest. The process is quick. Free hot water from the sun is created in just a few minutes.

Beyond this large-scale farm, Vanuatu has introduced additional sustainable initiatives, such as the installation of solar-powered streetlights and small-scale solar systems in isolated communities. These efforts align with the nation's ambitious goal to source 100% of its electricity from renewable resources by 2030.

Vanuatu is an archipelago consisting of 82 islands, with 65 inhabited. With the remoteness of the islands and limited access to centralised utilities, PCS also offers self supporting products suitable for the Vanuatu environment, including solar showers, hand sprayers, personal solar lighting and Lifestraw water filters.
