

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

How will bioenergy help French Guiana?

Government officials in French Guiana are pushing the proposal as a means to reduce their dependency on fossil fuels for energy. Local officials also hope bioenergy will create much-needed new jobs in the territory which has 26% unemployment.

Why are environmentalists decrying French Guiana biomass plans?

Environmentalists are decrying the French Guiana biomass plans -- and French President Emmanuel Macron's passive support of them -- not only for the Amazon deforestation it will cause, but because biomass burned to produce energy has been scientifically shown to release higher levels of carbon emissions than coal.

Can deforestation take place in French Guiana?

For now, EU administrative policy and the courts have prevented this targeted deforestation from taking place in French Guiana, even as other parts of the Amazon -- in Brazil, Peru and Ecuador, for example -- are extensively clearcut for ranches, roads, plantations and resource extraction.

Bordeaux (FRANCE), September 30th, 2021. HDF Energy (mnemonic code: HDF) and its equity partners, the infrastructure fund Meridiam and the petroleum operator SARA (Rubis Group) today announced the start of the construction of CEOG Renewable's Power Plant in French Guiana.
