

Extreme heat has been the greatest weather-related cause of death in the US for the last 30 years. In fact, between 2010 and 2020, roughly 12,000 Americans died from extreme heat, with Native American and Black communities disproportionately affected. Around the globe, excess heat collects in urban areas and can contribute to increased heat-related ...

Since 1985, Long Island Roofing has been providing cost-effective solutions in the roofing industry, all while keeping our customers as our number one focus. Water-shedding and warranted. Timberline Solar(TM) is made up of shingles, not panels or heavy tiles. These shingles are water-shedding, strong and warranted to withstand winds up to 130 mph. Rack-mounted solar installations--where ...

The GAF Energy system makes it easy for you to go solar. Working with a GAF-certified roofer to go solar means your new roof and its integrated solar have the option to be covered under the same industry-leading warranty. This warranty is backed by our partnership with GAF, a company that has been in business for more than 100 years. ...

In 2009, Solomon Islands energy consumption totalled 4,857 TJ with petroleum fuels accounting for 99.96% and renewable energy (RE) from hydro and solar accounting for 0.04% (contribution from biomass is excluded in this analysis). Petroleum fuel is currently

Over time, GAF Energy solar may even pay for itself AND your new roof, via monthly electric bill savings and government incentives. You may also get credit for solar energy you send back to the grid when your panels produce more power than your home uses. This could further increase your monthly savings.

Industry-leading warranty and services. With a GAF Energy solar roof, the warranty covers both the roof and solar; that's one more way we're making solar simple for you and your customers. But making solar simple means providing more than just a product, even if it is the world's first nailable solar shingle.

ENERGY PROFILE Renewable energy (% of TFEC) 48.5 Access to electricity (% of population) 66.0 Energy efficiency (MJ per \$1 of GDP) 4.9 Access to clean cooking (% of population) 9 ...
