

What does Goldwind do?

Goldwind provides zero-carbon solutions for new power systems, optimizing and rebuilding the energy links between the power source, grid, load and storage by integrating clean energy and digitalization, resulting in a smarter, more reliable, affordable, and sustainable Internet of Energy (IoE).

What is Goldwind's first wind power plus energy storage system hybrid project?

In December, 2020, Goldwind's first wind power plus energy storage system hybrid project--The Lingbi Project in China Anhui province, was completed and put into operation. The approved wind power capacity of Lingbi Project is 50MW, and adopted 16 sets of Goldwind GW140-3.0MW and 1 set of GW121-2.0MW direct drive permanent magnet wind turbines.

What is Etechwin & Goldwind's energy storage system?

Goldwind's subsidiary Etechwin provides the project 10MW/10MWh energy storage system, including wind-storage combined control system, 5 suits of 40-foot LFP battery containers and 5 integrated electric control prefabricated cabins for energy storage, power conversion, and pressure boost.

Why should you choose Goldwind?

For over two decades, Goldwind has been leveraging cutting-edge technologies to manufacture top-tier wind turbines, delivering best-in-class energy production, intelligent controls, and industry-leading availability. Our diverse product portfolio showcases adaptable leading technologies designed to suit various scenarios.

What does Goldwind mean for China's Wind power industry?

Goldwind is establishing a paradigm that steers the power industry towards a green and low-carbon future. The initiative supports the verification of the low-carbon attributes of wind power products and aims to elevate China's wind power industry to global standards, fostering a high-standard 'go global' movement. Future developments

What is a Goldwind offshore turbine?

Fan Yanbin, Product Director of Offshore Turbine at Goldwind explains that these are specifically made for waters with different wind speed characteristics. The impeller diameter is 26X with a power range of 12X to 16X. Fan Yanbin presents Goldwind's new offshore turbines at CWP 2023

Find out all of the information about the Goldwind product: wind turbine energy storage system . Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

The development and planning of Goldwind . smart energy internet . The introduction of Goldwind microgrid and . products . The core technologies and achievements of micro turbine and ...

Find out all of the information about the Goldwind product: wind turbine energy storage system . Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale. ...
Other Goldwind products ...

For over two decades, Goldwind has been leveraging cutting-edge technologies to manufacture top-tier wind turbines, delivering best-in-class energy production, intelligent controls, and ...

To promote global energy transformation, Goldwind has thoroughly integrated renewable energy and digital technology. We are actively building zero-carbon solutions for new power system, and optimizing and reconstructing source ...

Goldwind provides zero-carbon solutions for new power systems, optimizing and rebuilding the energy links between the power source, grid, load and storage by integrating clean energy and ...

With more than 20 years of experience in wind power and intelligent big data analysis of the energy sector, Goldwind is committed to developing wind power and other clean energy ...

2 ???· Both parties are also exploring investment opportunities for manufacturing energy storage products to meet demand from renewable and standalone energy projects in Vietnam. ... Additionally, T& T Group and ...

The Goldwind DEEP(TM) platform is the core of Goldwind's energy IoT system architecture. Our digital clean energy management systems help partners build a super-large digital ecology of ...
