

Bissau Solar PV Park 1 is a 20MW solar PV power project. It is planned in Bissau, Guinea-Bissau. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the dormant stage. It will be developed in a ...

Guinea-Bissau Economic Outlook Despite the difficult economic and political context in Guinea-Bissau, GDP grew 4.3% in 2023, up from 4.2% in 2022, driven by renewed dynamism in agriculture thanks to strong rice production. On the demand side, growth was driven by investment. Higher food prices and higher international rice prices pushed inflation to 7.2% in ...

Image: Offshore Technology. Also available in French and Portuguese. Guinea-Bissau has several offshore areas that hold good prospects for a variety of independent exploration and production (E& P) companies, as well as International Oil Companies (IOCs) that are currently operating in several of the MSGBC Basin countries including Sweden's Svenska ...

With a population of 14 million people (2022), the Republic of Guinea covers an area of 245.857 km<sup>2</sup>. According to current projections, the population of Guinea will reach 25 million by 2050. Its geographical location and its economic activities position it as one of the business centers of West Africa with its direct access by sea, road, and air.
