

How much does electricity cost in Guyana?

This is eight times higher than the electricity rates in Trinidad and Tobago, another regional energy powerhouse, of US 4 cents per kWh. Guyana's electricity cost is also higher than the Average Electricity Rate in the United States of US 10.42 cents per kWh. The major internet service provider is Guyana Telephone & Telegraph Co Ltd (GTT).

Is Guyana a good country for electricity?

Guyana's electricity sector is undiversified, expensive, unreliable, and does not contribute to reduction in carbon emissions. Over 90% of Guyana's total energy is generated primarily from fossil fuels, a mix of diesel and heavy fuel oil (HFO). The remainder is derived from renewables, including wood and sugar cane residue (biogas).

Who is responsible for oil & gas exploration in Guyana?

Guyana established a Department of Energy (DE) but this has been dissolved and its responsibilities fully integrated within the Ministry of Natural Resources responsible for the management of the sector. The existing legislative framework in Guyana gives responsibilities to various Ministers in areas related to the exploration of oil and gas.

Does Guyana have a low carbon development strategy?

Guyana, however, has a low carbon development strategy that envisages the nation having a primarily renewable electricity mix because of the vast amount of potential renewable energy within its borders, such as hydropower, wind power, ocean power, and solar power.

What are the economic benefits of gas to power project in Guyana?

The gas to power project in Guyana has significant transformational opportunities, particularly in that natural gas is a cheaper, more reliable, and cleaner source for electricity. The expected economic benefits are as follows:

Which recommendations are applicable for Guyana's gas to power project?

The following recommendations are therefore applicable for Guyana's gas to power project. Adequate grid infrastructure, policy, and legislative changes are required to ensure that all Guyanese benefit entirely from the gas to power project.
