

What is under cabinet lighting?

Under cabinet lighting is lighting that you add underneath the cabinetry on the walls to illuminate the area immediately surrounding the cabinets. It's unlike a traditional lightbulb-style fixture because it's designed to be hidden and space-saving, concealed by the cabinet trim so all you see is the light's effect.

Does under-cabinet lighting reduce energy bills?

Since under-cabinet lighting often uses high-efficiency lights to illuminate one area at a time, installing this type of lighting can help lower your energy bills. This provides more light for cooking and food prep while reducing the energy output of a lighting system.

What are the best under-cabinet lighting options?

Whether you want to revolutionize your kitchen space, give it a high-end, professional look or simply maneuver through a room without turning on the overhead lights, we've found the best under-cabinet lighting options. A light bar or strip is one of the best under-cabinet lighting options.

Why is under cabinet lighting important?

When you are standing at the counter with your back to the light source, your body creates a shadow right on your work space; cabinetry over countertops can create the same problem for overhead lights. Under cabinet lighting can illuminate surfaces and provide just the right amount of light to allow you to manage tasks with ease.

How do I choose the best led shelf lighting?

Select energy efficient LED shelf lighting or LED under shelf lighting that illuminates cherished items like little league trophies or the wedding China that comes out for special occasions. Position lights to hang over your shelves or provide another type of curated look by lining them with flexible LED light strips.

What is a linear shelf light?

A lighting solution for the unique needs of linear shelving surfaces and for underneath overhead storage, the LED Linear Shelf light combines high-quality illumination and energy-efficient LED technology in one versatile design. LED Linear Shelf light offers an average-rated lamp life of 50,000 hours.
