

Is a whole home battery backup system worth it?

You'll need about three times as much power for a whole home backup system, which is about three times the price of a partial home setup. Partial home battery backup systems generally make more sense for the average American home, but a whole-home setup may be worth it if you live in an area with frequent blackouts.

Can I drive an electric vehicle in the Falklands?

eLink are working on transport solutions for other sectors including off-road 4x4, commercial vehicles, and other specialist custom vehicles. We are able to supply EVs landed in the Falklands at an unrivalled value, no matter the brand or model. If you are interested in driving electric, get in touch.

Should you install a whole-home battery backup system?

Installing a whole-home battery backup system means you won't need to break out the candles or worry about keeping the refrigerator closed during power outages. With independence from the utility grid, you can avoid the inconvenience of outages without sacrificing your daily routines.
