

How much does an energy certificate cost?

Arranging an energy certificate report is often the best way for property owners and landlords to find out their current EPCs. A report of this kind may cost between £35 - 120, depending on the size of your property and its location. It will help you to understand how a building is currently performing.

What is the energy storage standard?

The Standard covers a comprehensive review of energy storage systems, covering charging and discharging, protection, control, communication between devices, fluids movement and other aspects.
