

6 ???· Finnish technology group Wartsila Corp (HEL:WRT1V) has received an order to install a 10-MW/26-MWh energy storage system at an engine power plant on the Honduran island of Roatan in the Caribbean. The storage solution ...

Construction has begun on a solar-plus-storage project on the Caribbean island of St. Kitts & Nevis, backed by Leclanché, Solrid and MPC Energy Solutions. The launch of the SOLEC power plant is nearly 18 months ...

Twelve new projects across the developing world have already been approved, including in Bangladesh, Brazil, Colombia, Haiti, Honduras, India, Indonesia, the Maldives, and Ukraine. In the next three years, CIF plans to ...

Wärtsilä's solution was an energy upgrade--including a new 10 MW / 26 MWh energy storage system and advanced control platform--that introduced flexibility into the local Roatan grid. While the batteries secure reliability by eliminating ...

A render of the project in Arizona, US. Image: SRP. A 250MW/1,000MWh battery energy storage system (BESS) project in Arizona will soon break ground, utility SRP and developer Plus Power said. Construction ...

Update 8 August 2023: This article was amended post-publication after Great Power clarified to Energy-Storage.news that the project has not yet entered commercial operation. A battery ...

Smart energy storage system that provides virtual spinning reserve capacity to maintain the stability of the grid, particularly important for the energy security of an island grid. Storage and GEMS bring grid flexibility and ...

The nine projects total US\$1.7 billion of investment, 1,366MW of renewable energy generation and 2,027MWh of energy storage capacity at the very least, with two not revealing exact figures. Planned commercial operation ...

Field has today announced the acquisition of the 200 MW / 800 MWh Hartmoor battery storage project from leading independent developer, Clearstone Energy. The project becomes the ...

Honduras has launched a consultation on regulatory changes to its electricity network to help better integrate energy storage, which it said is key to maintaining the stability, efficiency and ...

Greenko's winning submission is for a 500MW/3,000MWh pumped hydro energy storage (PHES) plant. It

will serve NTPC REL under a 25-year contract, with the power generation company seeking to use the long ...

It said that construction had begun on the Oasis de Atacama battery storage project, which will be the "largest in the world" with 4.1GWh capacity and a further 1GW of solar PV generation. The project will represent ...

6 ???· Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. The public event marked the ...

"The integration of Energy Storage Systems (ESS) in the national electrical system represents a key strategy to increase the stability, efficiency and sustainability of the ...
