

How To Home will not be held liable for any negligent or accidental damage or injury resulting from equipment, tools, electrical, fire, electronics or any items contained in this video.

How to video on electrical wiring, circuits, outlets, breakers and wiring a sub panel in a framed metal garage along with helpful tips to help you complete your DIY project.

A finished basement or a garage full of electrical devices needs a subpanel to fully power the room and any electrical devices you plan to use. Although the subpanel feeds off of the main breaker system, installing a new one also allows the room to have its own breaker box to ...
