

What is BMZ Hyperion?

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but also boasts a high adaptability to diverse requirements. Developed in close collaboration with inverter manufacturers, BMZ Group offers all-in-one solutions.

Why is BMZ Hyperion a good choice?

The Hyperion's modular design enables flexible scalability, making it the optimal choice for both residential and commercial applications. Its focus on efficiency, reliability, and adaptability positions the BMZ Hyperion as a forward-thinking solution for sustainable energy supply.

What is the BMZ battery storage system ESS Z?

The BMZ battery storage system ESS Z! ESS Z is a new modular lithium-ion based energy storage system, which stores the surplus of the collected solar energy for later use. Energy can either be directed into the storage system or be fed into the public grid via an inverter.

What makes the Hyperion a good storage system?

High quality lithium-ion battery cells are built into the Hyperion. The safe design and the robust construction follow the proven BMZ quality of the previous storage families. The emergency power storage reduces overall system costs and increases system efficiency. This is a genuine high-voltage memory; a hidden DC/DC converter is thus saved.

How many kWh is a Hyperion battery?

Intelligent power battery extension for the new high-voltage storage Hyperion, which consists of a module with a total capacity of 3 kWh. Simple and reliable installation as well as future expansion of the memory. Of course "Made in Germany".

Does the Hyperion work with Sunny Boy Storage inverters?

The Hyperion is compatible with SMA's Sunny Boy Storage inverters. For further information about the new high-voltage system "Hyperion", please send us an e-mail: sales.ESS@bmz-group.com

The BMZ Group have launched one of the world's first high-voltage storage system called Hyperion. The new innovative Hyperion high-voltage storage system is modular in design and allows easy and reliable installation as well ...

Discover the HYPERION LONG LIFE home energy storage system from BMZ Group. With a 20-year service life, robust design and simple installation, it is the perfect solution for a self-sufficient and reliable energy supply.

Im Hyperion sind hochqualitative Lithium-Ionen Batteriezellen verbaut. Der sichere Aufbau und die robuste Bauweise schließt an die erprobte BMZ-Qualität der vorherigen Speicher-Familien an. ...

BMZ Hyperion 3 Module 7,5 kWh - Der HYPERION SE (Special Edition) bietet dem Verbraucher einen modularen Aufbau im bestehenden Gehäuse. Er ist in vier Konfigurationen mit drei, vier, ...

Ab sofort ist die Hochvolt-Batterie **HYPERION** von BMZ mit dem Hybrid-Wechselrichter **PLENTICORE plus** und dem Batterie-Wechselrichter **PLENTICORE BI** von Kostal kompatibel. ...
