

What is BMZ Hyperion?

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but also boasts a high adaptability to diverse requirements. Developed in close collaboration with inverter manufacturers, BMZ Group offers all-in-one solutions.

What is Hyperion high-voltage storage system?

The new innovative Hyperion high-voltage storage system is modular in design and allows easy and reliable installation as well as future expansion of the storage system if higher energy volumes become necessary.

Why is BMZ Hyperion a good choice?

The Hyperion's modular design enables flexible scalability, making it the optimal choice for both residential and commercial applications. Its focus on efficiency, reliability, and adaptability positions the BMZ Hyperion as a forward-thinking solution for sustainable energy supply.

What makes the Hyperion a good storage system?

High quality lithium-ion battery cells are built into the Hyperion. The safe design and the robust construction follow the proven BMZ quality of the previous storage families. The emergency power storage reduces overall system costs and increases system efficiency. This is a genuine high-voltage memory; a hidden DC/DC converter is thus saved.

Does the Hyperion work with Sunny Boy Storage inverters?

The Hyperion is compatible with SMA's Sunny Boy Storage inverters. For further information about the new high-voltage system "Hyperion", please send us an e-mail: sales.ESS@bmz-group.com

How many Helios modules can a Hyperion have?

The "Made in Germany" product can be equipped with a minimum of three and a maximum of six helios modules with a total capacity of up to 18 kWh. High quality lithium-ion battery cells are built into the Hyperion. The safe design and the robust construction follow the proven BMZ quality of the previous storage families.

BMZ Hyperion LONG LIFE (12.6 kWh): This high-voltage lithium-ion storage system impresses with a service life of 20 years and over 10,000 charging cycles. The robust metal construction ...

Ab sofort ist die Hochvolt-Batterie "HYPERION" von BMZ mit dem Hybrid-Wechselrichter "PLENTICORE plus" und dem Batterie-Wechselrichter "PLENTICORE BI" von Kostal kompatibel ...

The HYPERION LONG LIFE home energy storage system from BMZ Group is a high-voltage lithium-ion storage system that has been developed for a self-sufficient energy supply. With an impressive lifespan of 20 years and a robust ...

Hyperion LONG LIFE: Der langlebige Hochspannungs-Lithium-Ionen-Speicher für autarke Energieversorgung - 6 Module: Energie (nom./nutzbar) 20,1 kWh / 12,6 kWh. Qualität - Made ...

BMZ Hyperion 3 Module 7,5 kWh - Der HYPERION SE (Special Edition) bietet dem Verbraucher einen modularen Aufbau im bestehenden Gehäuse. Er ist in vier Konfigurationen mit drei, vier, ...
