

Where are sunware solar panels made?

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. Made in Germany by SunWare.

Are sunware solar panels a good choice?

SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so you can have the luxury of cool drinks and keep the essential equipment like the depth sounder running too. Not sure what panels you need?

Who is sunware solartechnik?

The SunWare Solartechnik GmbH & Co. KG, based in Duisburg founded in 1987 by Dipl.-Ing. Julian Schren. Initially specialized in the production of solar modules, solar charge controllers for marine and caravan applications. In 1995, the product range of SunWare was extended by the service sector.

Are sunware marine solar panels a good choice?

SunWare's Marine modules are ideal for use on board sailing boats where there might be a need to walk on them but they are also an excellent choice for other tough applications on land. These non-glass solar panels can be installed in places susceptible to breakages or vandalism and therefore cut down the need for costly replacement.

What are sunware solar panels & charge controllers?

Developed for the harsh conditions at sea - SUNWARE solar panels and charge controllers. Since 1987, the company has been developing solar panels for the special challenges of saltwater usage, while always paying the greatest attention to quality. Learn more about SUNWARE... [Go to video...](#)

What are sunware solar panels used for?

SunWare solar panels are designed for extraordinary wind and temperature loads. Usage, among other things, in safety-relevant technology such as avalanches and glacier monitoring devices. Solar systems for public spaces.

SunWare solar modules are designed and tested specifically for use in marine and salt water. The modules are completely maintenance free, durable, and weatherproof. Even under extreme ...

SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so you can have the luxury of cool drinks and keep ...

Sunware ist Hersteller f&#252;r Offgrid Solarsysteme, Marine Solarmodule und Solaranlagen. F&#252;r Boot, Offshore & Allrad | Solarsysteme Made in Germany ... Sie wollen ein ausgereiftes Solar Produkt? Dann sind Sie bei uns richtig. Wir ...

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea sea buoys and boats to avalanche bridges, SunWare marine solar panels and ...

SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so ...

Description lightweight, compact and extremely powerful. The solar panels of the series-20 white are light, very compact and extremely powerful. The monocrystalline PERC high-performance solar cells are protected in an EVA ...

SUNWARE solar panels are particularly efficient at converting sunlight into power as all models are made up of 39 or 40 cells, a feature that has 3 distinct advantages over standard 36 cell ...
