

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

How has war affected Iraq's power infrastructure?

Despite the extraordinary challenges of war in recent years, Iraq has made impressive gains, nearly doubling the country's oil production over the past decade. But the turmoil has also undermined the country's ability to maintain and invest in its power infrastructure.

Can Iraq's gas growth integrated project overcome corruption and political instability?

But that's only if the parties implementing the agreement can overcome the endemic corruption and political instability that has undermined Iraq's oil sector for more than two decades. The Gas Growth Integrated Project focuses on bolstering the country's oil-rich but underdeveloped Basra province.

Will Iraq be able to connect to the GCC electricity grid?

Another planned power initiative aims to connect Iraq to the GCC electrical grid. This endeavor envisions delivering 1.8 gigawatts of electricity by 2025, stretching from the al-Wafra station in Kuwait to Iraq's Al-Faw station in the south.
