

What makes silfab solar panels unique?

Silfab solar panels are designed and engineered specifically for the North American environment. We incorporate advanced robotics, automation and the latest innovations in solar technology into our manufacturing process to deliver efficient, reliable, high-quality panels with one of the lowest defect rates in the industry.

Where are silfab solar panels made?

With facilities already in Washington state and Canada, Silfab Solar is excited to expand its North American production capacity in York County. Silfab Solar is a leader in high-efficiency solar panel assembly, and we are eager to build a more sustainable future with solar panels made in South Carolina.

Who is silfab solar?

Silfab Solar is a leader in high-efficiency solar panel assembly, and we are eager to build a more sustainable future with solar panels made in South Carolina. Approximately \$4.7 million in property tax to York County Estimated annual payroll, once fully staffed, of more than \$48 million Clean, safe processes with a low impact on traffic

What can silfab Solar do for You?

Environmental Support: In Bellingham, WA, Silfab Solar donated 325 solar panels for a high school that would be a sustainable environment that promotes global citizenship and environmental awareness. Along with other community donations, the panels were connected to the utility grid and this array can now produce nearly 100kW of power.

Why did silfab solar donate solar panels?

Silfab Solar donated solar panels for this initiative in 2019. Environmental Support: In Bellingham, WA, Silfab Solar donated 325 solar panels for a high school that would be a sustainable environment that promotes global citizenship and environmental awareness.

What does silfab Solar do for veterans?

Veteran Support: "Semper Cares" program: For the past 2 years, Silfab Solar has donated solar panels to the Semper Cares foundation. This charity works to give back by installing solar panels for veterans in the United States.

Silfab Solar Community Forum and Residents" Follow-up Questions Congressman Ralph Norman held a Community Forum about the proposed Silfab Solar manufacturing facility on Tuesday, Aug. 27. Rhonda Thompson, Bureau of Air Quality Chief, provided a presentation on the Air Quality permitting process.
