

Is longi green energy an energy storage company

Who is Longi Green Energy Technology?

LONGi Green Energy Technology Co.,Ltd. was established in 2000 and is committed to becoming the most valuable solar energy technology company in the world. Click and learn more about LONGi.

Is Longi a good solar company?

Over the past two decades, PV companies like LONGi have made solar power the most economically viable and widely accessible clean energy source globally through technological innovation, and LONGi is proud to be the trailblazer among peers.

Does Longi use green power?

Adopted green power in our production actively and optimized our energy structure. In 2023, 3,815 million kWh of LONGi's total about 31.10% of the total electricity consumption, which was equivalent to about 2,124,399.46 tCO₂e emission reduction.

How much energy does Longi produce?

This means that by the end of 2023, LONGi manufactured 27% of the global cumulative installed photovoltaic capacity, equivalent to generating 1.7361 trillion kWh of green electricity and cutting the emission of 812 million tCO₂e. This underscores LONGi's significant contribution to global climate action and sustainable development!

Does Longi produce green hydrogen?

Longi has turned its attention to green hydrogen in recent years. Li Zhenguo, the company founder and CEO, spoke to pv magazine about its strategic shift and how he believes that coupling this technology with solar PV will be the key to achieving carbon neutrality. How does Longi view the relationship between hydrogen, solar PV, and storage?

Why did Longi set up a green energy zone?

At the tournaments in Madrid, Halle, Shanghai, Turin and other regions, LONGi set up green energy zones for exhibition and interaction, where recycling stations were placed so that the audience of the tournaments could deposit used balls and other PVC/PET products in exchange for beautiful and exclusive gifts.

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, covering mono silicon wafers cells and modules,

...

LONGi Green Energy Technology Co., Ltd. (LONGi) was recently selected as one of the 50 winners of the 2022 China's Best Managed Companies award program by Deloitte China, becoming part of the global ...

Is longi green energy an energy storage company

With large-scale deployment of Photovoltaic + Energy Storage, LONGi Solar believes it will realize the manufacturing goal of "Solar for Solar" (photovoltaic products ...

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, ...

LONGi is committed to building the world's most valuable solar energy technology company. It continues to focus on energy innovation to form the "green electricity + Green hydrogen" service capability supporting global zero carbon ...

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, covering mono silicon ...

On April 11, Jilin Electric Power Co., Ltd. announced that LONGi Hydrogen Energy won the bid for the Da'an Wind and Solar Green Hydrogen Synthesis Ammonia Integration Demonstration Project (hereinafter ...
