Grid-Tie Micro Inverters. Micro inverters are a small weatherproof DC->AC inverter that install behind each solar panel. They are safer to install, good for solar systems that encounter shade, and allow for future system expansion. Request a quote. Enphase Microinverter IQ8-60-2-US.

Um micro inverter solar é basicamente um inverter grid tie em versão miniaturizada, projetado para ser usado com placas solares individuais em vez de um grupo de painéis solares. Enquanto o inverter solar tradicional se conecta a um conjunto de painéis, o micro inverter se liga diretamente a uma única placa fotovoltaica.
