

Could wind-energy harvesting reduce fossil-fuel consumption in Antarctica?

Wind-energy harvesting in Antarctica may have the potential to reduce fossil-fuel consumption considerably and alleviate dependence on fuel deliveries. One of the first wind turbines installed in Antarctica was the 20 kW wind turbine that was placed at Neumayer Station in 1991 .

Can the Antarctic Treaty System prevent future extreme events in Antarctica?

Whilst the Antarctic Treaty System cannot alone prevent future extreme events in Antarctica, it can take measures to seek to reduce further impacts upon Antarctic marine and terrestrial species and ecosystems to withstand and adapt to future change (Njåstad,2020). ...
