

Highest Load Availability
Low Lifetime Cost
Small Footprint to Save Space
Flexible Battery Configuration
5% Energy Efficiency

Available in three cabinet sizes, the 3 phase uninterruptible power supply offers flexible capacity for critical loads. The 10 to 25kVA units are available in two cabinet sizes and the 30 - 50 kVA units are housed in a larger cabinet to accommodate different configurations of internal batteries. Additional battery cabinets that match perfectly with t...See more on kohler-ups.ie
