

A summary of Sint Maarten's solar markets In 2014, Sint Maarten's council of ministers sanctioned the National energy policy document. This document was supposed to usher in a new era of renewable energy in the Caribbean Island country. More specifically, the policy document envisioned an 80% renewable energy capacity by 2020. Unfortunately, none of the targets ...

The report, facilitated through the National Recovery Program Bureau's "Emergency Recovery Project 1" under the St. Maarten Trust Fund, is aimed at modernising St. Maarten's energy sector to ensure a more sustainable and dependable power system.
