GREEN is a Kuwaiti Company with European expertise in engineering, designing, procurement, construction and maintenance of ground-mounted solar PV power plants and roof-top solar PV systems. ... and successfully introduced within GCC to bring the best European experience and practice in energy efficiency and renewable energy fields. All Rights ...

Kuwait's upstream oil activities and crude oil exports are the central pillars of the country's economy. In recent years the government has embarked upon an economic diversification drive to reduce vulnerability to oil price volatility and generate sustainable long-term growth. Renewable energy production is also targeted for expansion as Kuwait works towards fulfilling its climate

Renewable energy production is also targeted for expansion as Kuwait works towards fulfilling its climate commitments, while natural gas reserves are being harnessed to a greater extent and will play a central role in the national energy transition. Indeed, gas has made an increasing contribution to Kuwait's energy mix in recent years.
