

Which energy storage solutions will be the leading energy storage solution in MENA?

Electrochemical storage(batteries) will be the leading energy storage solution in MENA in the short to medium terms,led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries.

Why are energy storage systems being integrated in MENA?

The pace of integration of energy storage systems in MENA is driven by three main factors: 1) the technical need associated with the accelerated deployment of renewables,2) the technological advancements driving ESS cost competitiveness,and 3) the policy support and power markets evolution that incentivizes investments.

Which energy storage technology has the most installed capacity in MENA?

Pumped hydro storage(PHS) has the largest share of installed capacity in MENA at 55%,as compared to a global share of 90%. Pumped hydro storage is one of the oldest energy storage technologies,which explains its dominance in the global ESS market.
