

Lebanon energy storage equipment price trend

Which energy storage solutions will be the leading energy storage solution in MENA?

Electrochemical storage(batteries) will be the leading energy storage solution in MENA in the short to medium terms,led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries.

How does the Lebanese economy work?

The Lebanese economy has traditionally relied heavily on the service sector - focusing on banking,tourism,construction and real estate- and activities are mainly undertaken by private companies. Lebanon's gross domestic product (GDP) was estimated at USD 53.6 billion (current USD) in 2017 (World Bank,2019b).

How will EDL help the Lebanese economy?

This increase in generation capacity will allow EDL to close the gap between electricity supply and demand,thereby reducing dependency on private generators by 2020,reducing the electricity bill for consumers and supporting the Lebanese economy by providing a reliable,low-cost electricity supply.

Is NEEREA a good investment for the Lebanese economy?

NEEREA has witnessed rapid growthand broad acceptance among the public,despite the barriers and instability in the energy sector. NEEREA loans are becoming increasingly popular products in the Lebanese banking sector,with more than 938 projects worth more than USD 560 million financed as of March 2019 (see Figure 25).

When did the Lebanese electricity reform plan come out?

On 8 April 8,2019,the then Lebanese government adopted the update to the electricity reform paper prepared by the MEW in collaboration with the World Bank. This plan relied on the 2010 action plan but introduced changes to some of the approaches adopted in previous versions.
