

How did RPS help the government of Equatorial Guinea?

During that time, our team built a unique understanding of the country's oil and gas assets. Over the 20 years that RPS supported the Government of Equatorial Guinea, our team built up a thorough understanding of the country's oil and gas assets and developed expertise in all aspects of the producing assets.

Which countries are promoting LFP battery recycling?

China has also proposed legislation, including the "Measures of Comprehensive Utilisation of NEV Batteries," to ensure battery recycling. Other countries such as India, South Korea, and Nigeria are also developing battery recycling frameworks. This growing legal pressure will encourage LFP battery recycling market.

Where does LFP technology come from?

Currently, LFP technology is largely concentrated in the Chinese market. Close to 70% of China's EV battery deployments year to date have been LFP. In contrast, LFP shares in Europe and North America remain modest, at 8% and 9%, respectively.

What are lithium-iron phosphate (LFP) batteries?

Lithium-iron phosphate (LFP) batteries are redefining sustainable power for electric vehicles. Engineered to enable faster charging, longer life cycles and improved safety ratings, our LFP solutions provided unmatched support for electrification. Ask us about LFPs

Is the LFP battery recycling market a good investment?

While the LFP battery recycling market presents clear opportunities, it faces significant hurdles, particularly around profitability and supply chain development outside of China. For more information about the battery recycling market, capacities, industry trends and more, please see our Battery Recycling Research, or get in touch.

When did the petroleum industry start in Equatorial Guinea?

Significant expansion of the petroleum industry in Equatorial Guinea started in the 1990s after the discovery of the Alba gas condensate field in 1983, and the subsequent discovery of the Zafiro and Ceiba fields.

Fasken advised the Ministry of Mines and Hydrocarbons (MMH), Equatorial Guinea (EG), on the execution of definitive agreements for the monetization of gas from the Alen Unit, located ...

Fasken advised the Ministry of Mines and Hydrocarbons (MMH), Equatorial Guinea (EG), on the execution of definitive agreements for the monetization of gas from the Alen Unit, located offshore Equatorial Guinea (EG) and operated ...

Equatorial Guinea, [a] officially the Republic of Equatorial Guinea, [b] is a country on the west coast of

Central Africa, with an area of 28,000 square kilometres (11,000 sq mi). Formerly the colony of Spanish Guinea, its post-independence ...

RPS has over 20 years experience of the oil and gas assets of Equatorial Guinea, providing integrated technical and operational support to the Equatorial Guinea Ministry of Mines, Industry and Energy.

"Equatorial Guinea has much bigger problems than this sex scandal," said Mr Cruz, who works for a rights organisation called GE Nuestra. "This sex scandal for us is just a symptom of the ...

Will Equatorial Guinea fulfil its promise as a gas "mega hub," or will stalled negotiations turn what should be a national economic boon into a missed opportunity? The answer depends largely on how quickly the country ...

LG Energy Solution sees lithium iron phosphate (LFP) battery production to meet demand for stationary energy storage systems (ESS) in the US market as a "new growth engine" for the South Korean manufacturer.

Eguana said it has responded to customer interest in cobalt-free energy storage solutions. The Evolve LFP units have 5kW AC rated output, scalable from 14kWh to 42kWh ...

Will Equatorial Guinea fulfil its promise as a gas "mega hub," or will stalled negotiations turn what should be a national economic boon into a missed opportunity? The ...
