

Last summer I bought a \$50 metal detector at Walmart. Unfortunately it provided very poor results, so I returned it. Are there "reasonably priced" metal detectors that can easily ...

Without knowing what your desk is like, I offer this. I had a metal desk and I'd lost the key to the lap drawer. Discovered I could wedge my fingertips between the underside of the desk and top ...

When looking for lost items using a metal detector, keep in mind that objects other than your car keys may trigger the device. Some materials such as fences, aluminum siding, ...
