

Why is Mali building a new solar power plant?

As Mali grapples with an ongoing electricity crisis that hampers economic growth, transitional President Assimi Goita laid the foundation stone for a new 200 MW photovoltaic solar power plant. The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector.

Why is Mali launching a 200 MWp solar power plant?

Loading... Mali's President Assimi Goita has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

What services does smart sun solar offer?

"Smart Sun Solar offers turnkey services that help you experience the value of solar energy. Our all inclusive services encompass consultation, design, commissioning, maintenance, and monitoring for a lifetime. The SunSmart solar power system was initially conceived as a response to the growing demand for and use of
electric vehicles (EVs). Traditional internal combustion engine (ICE) vehicles are a leading cause of pollution
and global climate change. Experts estimate that unless we replace at least 25% of ICEs with EVs, our global
tipping point is ...
