My hybrid solar system was installed by Power Africa in July 2021. I started with a Green Package - 1 x 5kW inverter, 1 x 5kW battery and 9 x 405W panels and I have since added another three panels (also 405W) and 2 more 5KW batteries over the last 3 years. I have the data of my home's electricity usage and cost, since July 2018 (when I bought ...

1 ??&#0183; Minigrid systems use software to control distributed renewable energy resources like solar panels and battery storage, providing remote communities with reliable, clean and affordable power. Often, minigrids displace diesel generators, which are expensive to run and frequently unreliable, especially if there are interruptions in fuel deliveries.
