A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Moldova varies throughout the year. The wetter season lasts 3.7 months, from April 5 to July 27, with a greater than 18% chance of a given day being a wet day. The month with the most wet days in Moldova is June, with an average of 7.4 days with at least 0.04 inches of ...

DIY solar printing kits are a fun way to create an art experience at home or in nature, gather friends or send to friends. Forage and collect plant fragments on a walk or from your favorite plants to create realistic impressions, and expose in the natural sunshine. The result is an original Botanical &quot;Blueprint&quot;.
