A friend of my dad's who's got them installed last summer actually earned money. Though his circumstances are a little different, less people and less time at home. Also cause they buy you out cheaper it's smart usage to turn high consumption appliances during the day, cause the solar energy first goes into the house and then to the grid.

Over the period of one year Montenegro often has over 240 sunny days, thus the use of solar systems is the most ideal, most efficient and cleanest way to obtain energy. The intensity of solar radiation is among the highest in Europe, which ...
