

How can Morocco improve its energy security?

As a net energy importer seeking to improve its energy security, Morocco has stepped up initiatives to achieve a level of domestic energy sovereignty. This includes following guidelines for transitioning to cleaner energy sources, with an emphasis on diversification.

Why should Morocco invest in natural gas & LNG?

The long-term vision underscores the critical need for diversifying Natural Gas and LNG sources, as a risk-hedging mechanism, given Morocco's heavy reliance on energy imports (90% of total energy). This strategic roadmap reflects Morocco's commitment to securing a sustainable and diversified energy future (mem.gov a, 2023).

How is Morocco pursuing a resilient energy future?

Morocco is pursuing a resilient energy future through a multifaceted approach. This includes a strategic focus on renewable energy sources to accompany its energy transition, and the diversification of its energy mix to ensure a sustainable energy transition without compromising energy security.

Is Morocco paving the way for a successful energy transition?

Morocco recognizes cooperation as a crucial element for the success of its strategies, as underlined by the efforts made at COP28. By integrating these factors, Morocco is paving the way for a successful energy transition, without compromising energy security. Morocco's Natural Gas Strategy: A Bridge Fuel to Renewable Energy

What is Morocco's strategic focus on natural gas?

Morocco's strategic focus on natural gas is articulated through a domestic roadmap, the Natural Gas roadmap that was launched in 2021 and covers the period 2021-2050, aims to create a regulated market that stimulates evolving demand.

Why is Morocco preparing a Green Hydrogen strategy?

The Moroccan government has for months been preparing its green hydrogen strategy to attract investors, as it seeks to capitalise on abundant wind and sun. In terms of actual production, about 70% of Morocco's electricity is generated from coal, with renewable energy representing 20% last year, according to official figures.
