

Form Factory 1 is Form Energy's first high-volume battery manufacturing facility located in Weirton, West Virginia at the site of the former Weirton Steel plant. The facility will ultimately employ more than 750 people and will have an annual production capacity of 500 megawatts of batteries when operating at full capacity.

In all these areas, Portugal can be a leading partner in Mozambique's energy transition journey. Concerning funding sources, we have some mechanisms that can be relevant. Besides those at the bilateral co-operation level, there are financial instruments designed to stimulate investment projects, with energy and the environment being priority ...

How will the government's USD 80-billion energy transition plan impact AMER's operations? AMER is cautiously optimistic about Mozambique's ambitious goal of achieving universal energy access by 2030. The recently released national energy transition strategy outlines a bold vision, but how plans translate into action remains to be seen.

Vitol and Empresa Nacional de Hidrocarbonetos (ENH) on 17 September announced the launch of a joint venture commodity trading company, ENH Energy Trading. The company will initially be owned 51% by ENH and 49% by Vitol, but ENH's share is expected to increase over time, a joint statement said. It will be based in Singapore to focus on marketing Mozambique's ...
