

Who is Natron Energy?

SANTA CLARA, Calif., August 15, 2024--Natron Energy, Inc. ("Natron" or "the Company"), a global leader in sodium-ion battery technology, today announced plans to build the first sodium-ion battery gigafactory in the United States.

Why is Natron Energy launching a sodium-ion battery manufacturing facility?

"Today is a momentous day for Natron Energy. This flagship manufacturing facility will dramatically accelerate our efforts to deliver sodium-ion batteries to customers who are hungry for safe, reliable, and environmentally responsible energy storage solutions," said Colin Wessells, Founder and co-CEO, Natron Energy.

Could Natron Energy Supply sodium-ion battery storage to a 'integrated hybrid generator'?

Natron Energy could supply sodium-ion battery storage to a novel 'integrated hybrid generator' project in Queensland, Australia. The US-headquartered startup, one of several major and emerging players developing and commercialising the battery technology, has signed a Letter of Intent (LOI) with Vast Solar, the project's developer.

Who is the new CEO of Natron Energy?

Natron Energy founder Colin Wessells, left, will transition to the role of chief technology and product officer following a transitional period of serving as co-CEO with Wendell Brooks, who becomes the energy company's CEO. The executive takes over the top role from the battery manufacturer's founder and co-CEO.

Where are Natron batteries made?

The facility will be located in Edgecombe County, NC, and is expected to produce 24GW of Natron's revolutionary sodium-ion batteries annually at full capacity. Natron's sodium-ion batteries offer higher power density, more cycles, a domestic U.S. supply chain, and unique safety characteristics over other battery technologies.

Does Natron Energy have a mass production plan?

Two years ago, sodium-ion battery pioneer Natron Energy was busy preparing its specially formulated sodium batteries for mass production. The company slipped a little past its 2023 kickoff plans, but it didn't fall too far behind as far as mass battery production goes.

3 ???&#0183; Wessells co-founded Natron Energy in 2012 with two advisors as a spin out of his PhD thesis in the materials science department at Stanford University. The company said he is a co ...

Natron Energy's investors include United Airlines, Swiss multinational automation hardware company ABB, oil and gas major Chevron as well as investment firms including Khosla Ventures and Fluxus Ventures. In late

2022, it was in talks to supply its battery tech to a hybrid concentrated solar power (CSP) and PV plant in Australia for project ...

Natron Energy makes sodium-ion batteries strictly for commercial and industrial use. If you're a business or supplier that has an inquiry, feedback or an issue we can help address, please provide information below. PLEASE READ BEFORE SUBMITTING THIS FORM. Please note that Natron makes batteries for industrial applications only.
