

In the village of Benban in Aswan, the largest solar energy station in the world is built, where 90% of the energy produced from the High Dam will be generated. This is within the framework of ...

In the village of Benban in Aswan, the largest solar energy station in the world is built, where 90% of the energy produced from the High Dam will be generated. This is within the framework of the strategy developed by the New and ...

Benban Solar Park is a photovoltaic power station with a total capacity of 1650 MW nominal power which corresponds to an annual production of approximately 3.8 TWh. It is located in Benban (Aswan Governorate) in the western desert, approximately 650 km south of Cairo and 40 km northwest of Aswan. Benban is currently the 4th largest solar power plant in the world.

In the land of gold, near Aswan, the jewel of the Nile, lies one of the largest solar parks in the world: Benban. This is no coincidence: located between latitudes 22 and 31.5 north, Egypt has ...

This marks the completion of the 390 MW Benban solar project located near Aswan in Upper Egypt. The project is part of the 1.8 GW Benban solar park - one of the world's biggest solar parks where Scatec Solar is the ...

According to the project's original analysis, Benban 1.8 GW PV Solar Park, Egypt - Strategic Environmental & Social Assessment, released February 2016, "NREA (New and Renewable Energy Authority) has in turn ...
