

## **Netgear orbi telecom outdoor mesh wifi system in kiosk**

I have an Orbi 970 mesh in my home (one router, 3 satellites), but I'd like to project the mesh across my entire back yard. Do any Netgear products let me take an extender outside ...

I ended up going with a TP-Link Omada EAP Outdoor and creating a new outdoor mesh with wired backhaul to the indoor Orbi units. Works really well apart from having to connect manually to ...
