Another interesting energy storage ETF is GRID, which is focused on alternative energy infrastructure companies such as power management company Eaton Corp. (ETN), industrial conglomerate Johnson Controls International PLC (JCI), and electronics and automation pioneer Abb Ltd. (ABB).

Which energy storage stocks are a good investment?

Albemarle is the top holding, followed by Tesla, so if you can't decide from the previous stocks, this fund is a good one-stop investment to play the pending energy storage boom. With more than \$1 billion under management and about 60 components, this First Trust fund is another interesting and diversified way to play energy storage.

What is a WBAT ETF?

This ETF is a thematic fund that is tilted towards the battery value chain and as such can be highly concentrated within specific sectors. At launch, sector allocations include materials at 38.11%, industrials at 36.75%, information technology at 15.55%, and several smaller allocations. WBAT carries an expense ratio of 0.45%.

How will utility and energy companies evolve?

There is no way to predict precisely how the landscape of utility and energy companies will evolve, but these firms are front-footed when it comes to the next generation of energy storage infrastructure: Known for its "gigafactory" designs, Tesla is a natural fit for any list about battery technology.

What is the future of alternative energy?

The future of alternative energy relies on next-gen storage infrastructure. If we cannot transmit or effectively store that energy for use at different times or different places, we'll never wean our way off fossil fuels. There's a lot of talk about alternative energy solutions these days, from wind to solar to hydropower.

Is Fluence energy storage a good investment?

A hybrid energy storage and artificial intelligence play, Fluence offers energy storage products with integrated software in addition to the batteries and hardware itself. Its offerings include industrial-grade energy storage products, and that makes FLNC stock a great way to invest in large-scale energy storage applications.
