Our key standard for all the solar systems that we provide is that we only use equipment we would be happy to install on our own homes. Your solar PV system consists of three main pieces of equipment; Solar panels; Inverter; Mounting equipment . Solar Panels. Although they may look the same, not all solar PV panels are created equal.

WAPP Niger Solar PV Park is a 150MW solar PV power project. It is planned in Niger. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase. Post completion of the construction, the project is expected to get commissioned in 2024.
