

The Hinen 7.776KWH High Voltage Lithium Battery offers high-capacity energy storage with advanced lithium-ion technology. Designed for high voltage systems, it features a compact design, rapid charging capability, and integrated smart management for efficient and reliable power backup. Ideal for residential or small commercial use, it ensures safety and durability in ...

The Hober Hybrid 3.7kW Single Phase Inverter integrates solar power with grid connectivity to deliver efficient and reliable energy management. With a robust 3.7kW capacity, it supports various battery types and configurations, optimizing solar energy usage and providing backup power during outages. The inverter features intelligent power management for enhanced ...

The 300L SWH Non-Pressure Vacuum Tube Solar Water Heater offers efficient and eco-friendly hot water for residential and commercial applications. With a 300-liter capacity, it utilizes vacuum tube technology for optimal solar energy ...

Cytek Solar > Products > Portable Power Stations > 300W Hinen Portable Power Station. 300W Hinen Portable Power Station. The PS300 is a small and portable, yet powerful outdoor mobile power supply. It usually features a high-capacity battery and multiple charging ports for charging mobile phones, tablets and even laptops.

The 545 Watts Tiger Pro Jinko Panels provide high power output and efficiency with advanced monocrystalline silicon cells. These panels are designed to perform well even in low-light conditions and high temperatures, offering durable construction with a strong frame and tempered glass. Ideal for various solar installations, they come with a comprehensive warranty for long ...

The Chint 8KW Off-Grid Inverter is a high-capacity solution for converting solar power into usable AC energy in off-grid systems. With an 8 kilowatt capacity, it efficiently manages energy from solar panels and batteries, ensuring reliable power supply. Its robust design includes safety features for protection and compatibility with various battery types, making it ideal for remote or ...

The Megatank Lithium Battery 1920WH (75AH) LiFePO4 offers a high-capacity, efficient energy storage solution, designed to replace traditional lead-acid batteries. With a robust 1920 watt-hour capacity and 75 ampere-hours, this lithium iron phosphate battery provides long-lasting performance and reliability. Its lightweight and compact design, combined with enhanced ...

We customize solar systems for residential use according to the appliances in the house and the budget. Before buying a solar system for your home, it is prudent to calculate your load(house hold appliances) so as to determine the size and ...

Efficiently harness solar power with the 200L Sollatek Solar Water Heater. Featuring high-efficiency collectors and a well-insulated tank, this system provides reliable hot water, reduces energy costs, and offers long-lasting performance for both residential and commercial use.

The 10KVA Growatt Hybrid Inverter offers high-efficiency energy management for medium to large installations, integrating both solar and battery storage systems. With an impressive 98.4% efficiency, it ensures optimal energy conversion and reliable performance. This inverter supports multiple MPPT channels for enhanced solar harvesting and is compatible with various battery ...

The 100W, 18V Hinen Foldable Solar Panel is a portable and efficient solar solution, offering 100 watts of power with an 18-volt output. Its foldable design makes it easy to store and transport, while its durable construction ensures reliable performance in various weather conditions. Ideal for camping, RVs, and emergency power needs, this panel features high efficiency and flexible ...

Cytek Solar > Products > Portable Power Stations > 3000W Portable Power Station (With expansion port) 3000W Portable Power Station (With expansion port) PS3000MAX is a powerful and widely applicable outdoor mobile power supply, which can meet the needs of long-term off-grid power consumption.

The Hinen 1800W Portable Power Station provides reliable and versatile power on the go with a robust 1800W output. Compact and easy to transport, it features multiple ports for charging devices and appliances, and a high-capacity battery for extended use. Ideal for outdoor adventures, emergencies, or remote work, it combines convenience with powerful performance.

The 400W, 36V Hinen Foldable Solar Panel is a high-efficiency, portable solar solution designed for easy transport and use. With a 400-watt power output and 36-volt voltage, it provides reliable energy conversion in a foldable, weather-resistant design. Ideal for outdoor activities or backup power, this panel offers convenience and performance with simple setup and compatibility with ...

The Megatank Portable Power Stations - 1000W Battery delivers robust 1000W power output with a high-capacity battery for extended use. It offers versatile charging with multiple ports, a portable design for easy transport, and expandable capacity for added flexibility. Durable and user-friendly, it's perfect for outdoor adventures and emergency power needs. 4o mini

The Megatank 51.2V Lithium Battery delivers robust performance with a nominal voltage of 51.2V and a substantial capacity of 100Ah. Utilizing Lithium Iron Phosphate (LiFePO4) technology, it offers up to 6,000 cycles at 80% depth of discharge. It supports fast charging and operates within a broad temperature range: charging from 0°C to 45°C and discharging from -20°C to 60°C. ...
