

Who is Dan-tech energy?

Dan-Tech Energy, with decades of battery technology experience, offers a complete range of products and services for drones, robotics, portable energy applications, e-mobility and other OEM equipment manufacturers that will fit perfectly to your application

Why should you choose Dan-tech energy?

At Dan-Tech Energy, we specialize in providing comprehensive and reliable testing solutions to ensure the safety and compliance of your battery products with UN38.3 regulations. Our state-of-the-art laboratory and expert team can certificate your battery packs in a quick process.

Why should you choose Dan-tech batteries?

At Dan-Tech, our advanced Li-Ion battery solutions are designed with patient safety, reliability, and efficiency in mind. Utilizing high-density cells, our batteries offer extended runtimes, fast recharging capabilities, and a compact design to support a wide range of medical devices such as portable monitors, infusion pumps, and diagnostic tools.

Where is Dan-Tech located?

Dan-Tech's headquarter, labs and production facilities are located in Berlin Adlershof Science City, which is one of the most successful high-technology locations in Germany. Around 3200 sqm of space hosts our European team, sales, logistics and advanced automated assembly lines for Li-Ion batteries and systems.

Why should you choose dantech for a lithium-ion battery pack?

Dantech's vision is to lead the way to the world of tomorrow through innovation, originality and knowledge. Therefore, we innovated a unique system for production of Lithium-ion battery packs in 4 simple steps, to bring your product up to market fast and efficient. Developing the right li-ion battery pack solution is a complex process.

La visión de Dantech es liderar el camino hacia el mundo del mañana a través de la innovación, la originalidad y el conocimiento. Por ello, hemos innovado un sistema único para la producción de baterías de iones de litio en 4 sencillos pasos, para que su producto salga al mercado de forma rápida y eficaz.

High density li-ion battery. Our Energy Cases contains state-of-the-art lithium-ion battery cells with a very high density efficiency of 255 Wh/Kg and 700 Wh/L compared to most other products on the market that uses battery cells with density efficiency of about 110Wh/Kg and 220 Wh/L. That means that our Energy Cases are more than X2 lighter and X3 smaller in compare to a similar ...
