QINOUS was established to pool expertise for the production of cost-effective and environmentally friendly energy supply for off-grid regions. Our solution for this is a modular, standardized energy storage solution with high quality standards: the Qinous ESS. The QINOUS team has accumulated decades of expertise with a variety of battery technologies, power grid ...

Rolls-Royce has acquired a majority stake of 73.1% in Berlin-based energy storage specialist Qinous.The automotive firm is acquiring all shareholdings of current investors aside from those held by the founders, who

will continue in their current roles in the business.

Qinous GmbH develops and sells standard plug and play energy storage solutions that are opti-mally tailored to hybrid grids. In this way, electricity produced from wind turbines or photovol-taic plants can be stored, thus enabling the use of diesel gener-ators to be considerably reduced. Founded in 2013, the company has been running a 100 kW island

Rolls-Royce has expanded the business formerly run as Qinous GmbH into a Microgrid Competence Center. In January, we announced that we had acquired a 73.1% majority stake in the Berlin-based electricity storage specialist.The renaming of Qinous as Rolls-Royce Solutions Berlin GmbH and expansion into a Microgrid Competence Center is further evidence ...
