

What is the power sector policy in Guinea Bissau?

Guinea Bissau: Power Sector Policy Note EXECUTIVE SUMMARY The electricity sector in Guinea Bissau is in the midst of a transformational reform towards a sustainable development characterized by reliable, greener and affordable service delivery.

How many PPAS has EAGB signed with IPPs in Guinea Bissau?

In Guinea Bissau, the power purchaser EAGB has signed two PPAs so far: the first with the Karpowership company for a 30 MW HFO power plant, and the second with Electricité de Guinée (EDG), the national public electric utility of Guinea, for importing power through the OMVG transmission line by 2022.

Why did Guinea-Bissau Sign a deal with Karpowership?

In 2019, its government signed a deal with Karpowership, one of the world's biggest floating power plant operators, to supply the country with all its power. A spokesperson for the company told the BBC that Karpowership was "grateful" for Guinea-Bissau's efforts to pay the bill, which made it possible to resume electricity supplies.

What's happening in Guinea-Bissau?

Power outages in Bissau are frequent, with some parts of the city going without power for more than four hours a day. The World Bank said in 2020 that Guinea-Bissau's "electricity sector has been trapped in a downward spiral for decades" due to political instability, poor management, lack of planning and "vested interests".

Is Karpowership supplying 100% of Guinea-Bissau's electricity?

Karpowership says it has been supplying 100% of Guinea-Bissau's electricity since signing a five-year agreement with the state-owned electricity and water utility company in 2019. The country is one of the poorest in the world and has been beset by instability since independence.

Why is Guinea-Bissau's electricity sector in a downward spiral?

The World Bank said in 2020 that Guinea-Bissau's "electricity sector has been trapped in a downward spiral for decades" due to political instability, poor management, lack of planning and "vested interests". Karpowership supplies electricity to six other African countries - Ghana, The Gambia, Ivory Coast, Mozambique, Senegal and Sierra Leone.

tier rating: Tier 3 -- Guinea-Bissau does not fully meet the minimum standards for the elimination of

trafficking and is not making significant efforts to do so, therefore Guinea-Bissau remained on Tier 3; despite the lack of efforts, the government took some steps to address trafficking, including investigating cases, identifying potential ...

The deep history of what is now Guinea-Bissau is poorly understood by historians. The earliest inhabitants were the Jola, Papel, Manjak, Balanta, and Biafada peoples. [citation needed] Later the Mandinka and Fulani migrated into the region, in the 13th and 15th centuries, respectively. They pushed the earlier inhabitants towards the coast and onto the Bijagos islands.

Figure 1. Location of Guinea-Bissau, its administrative regions, and meteorological stations used in this study. In the map on the left, black dots are the stations with longer climatological series (1981- 2020), and gray dots are the remaining stations with precipitation data for 2020.
