Information is checked, categorised and connected.

First, we meet with you to go over your solar needs from your average power consumption. After that, we give you a proposal that shows the amount of panels that you will need as well as where they will be on your house to cover your power needs. Once that is done, we do a site survey to get all the details we need to send to our

permitting ...

Martinique makes strides towards energy self-sufficiency March 18, 2019 With the 14MW Grand-Riviere wind park inaugurated last month, and further projects on the way, Martinique has been making strides towards achieving its goal of being energy self-sufficient by relying on renewable energy by 2030. The Grand-Riviere wind park counts seven ...
