Where can I find a blueprint for a solar system?

They have some tried and tested blueprints that you can start with. Facebook market place or OfferUp. Local pickup. 325w for 169\$ It sounds like you are just beginning your solar journey. You will need a lot more knowledge to build your own system than just a quick post on reddit, but it's a great place to start.

Where can I buy Chinese panels?

Most of the major reputable Chinese brands are available on Alibaba, but you'll need to order a pallet or more (typically 30+ panels). Then you need to arrange payment, shipping, port handling, customs clearance, and trucking from the port to you. Of course, you'll own any panels broken in the process unless you've arranged insurance.
