Get in Touch Battery-storage company Polarium Energy Solutions AB raised 500 million Swedish kronor (\$49 million) in a fresh funding round backed by investors with stakes in beleaguered battery maker Northvolt AB.

Did Polarium raise 500 million kronor?

(Bloomberg) -- Battery-storage company Polarium Energy Solutions AB raised 500 million Swedish kronor (\$49 million) in a fresh funding round backed by investors with stakes in beleaguered battery maker Northvolt AB. Polarium issued convertible preference shares to existing investors, according to a statement on Tuesday.

Can a Polarium battery be used as energy storage?

"I'm not even allowed in there," says Stefan Jansson, the CEO of Swedish energy storage scaleup Polarium. But in the rooms he can go into, his company is assembling battery cells into modules, setting them up with "state of the art" electronics and software then turning them into ready-to-ship, next-generation energy storage systems.

What makes Polarium different?

Based on the same technology and product, Polarium now has a three-fold offering of battery modules, battery energy storage systems and energy optimisation systems.

How does Polarium contribute to the energy sector?

"Polarium contributes to the energy sector through the power of lithium technology." The decarbonization of the energy sector has led to a surge in renewable energy. Innovative technology is optimising the delivery of time-critical and life saving shipments.

Is Polarium a smart and sustainable company?

Realizing that the lithium-ion technology would be key to empower a smart and sustainable world. Today, Polarium has grown into a truly global company and has been recognized as the seventh-fastest growing company in Europe by the Financial Times. However, Polarium is just at the beginning of its journey.

Polarium and Pixii have signed a Memorandum of Understanding (MoU) to jointly develop and market energy storage solutions including Polarium lithium batteries and Pixii inverters and related equipment. The two companies' first joint project is for the Scandinavian market and includes a multi-megawatt system, enabling peak-shaving and battery backup.

The Power Shift: Grönlands Plåt's Strategic Leap with Polarium's Energy Solutions. Grönlands Plåt installed an Energy Optimization System from Polarium in 2024. The solution was installed to enable Grönlands to secure that they always have energy available when they need it,

reduce their exposure towards the volatile energy market by ...

Polarium was founded in 2015 on the conviction that safe, smart and sustainable energy storage solutions will be key to empower the transition to a truly, sustainable energy future. We are an impact business contributing to the sustainable energy transformation by enabling renewables, electrification and intermittent power supply.

Polarium Power Skid is a pre-engineered, rigmounted energy storage system designed to meet the escalating power demands of our energy future. The turn-key solution provides fast deployment and scalability tailored to your needs. It is based on Polarium BESS or Polarium Battery Energy Optimization System.

Safe, smart and sustainable energy storage solutions will be key to empower the transition to a truly sustainable energy future. Polarium's mission is to unlock endless energy. Our storage solutions maximize the potential of solar and wind installations, by turning renewable energy into a dispatchable asset and ultimately become more energy efficient.

About Polarium Polarium is a leading energy storage developer. We make energy storage and optimization solutions built on lithium-ion battery technology for businesses within telecom, commercial, industrial and ...

In the evolving landscape of energy storage, security has become key. As the demand for efficient and sustainable energy solutions grows, so does the need to protect these valuable assets from theft. Energy storage systems are ...

Svea Solar och Polarium, två ledande svenska företag inom solenergi och energilagring, samarbetar för att gemensamt kunna erbjuda användarvänliga och effektiva energilösningar för hushåll. Under andra hälften av 2023 har efterfrågan på hembatterier skjtit i höjden, och två tredjedelar av Svea Solars kunder väljer nu att integrera ett batteri i sina ...

Polarium Power Skid is a pre-engineered, rigmounted energy storage system designed to meet the escalating power demands of our energy future. The turn-key solution provides fast deployment and scalability tailored to your needs. It ...

Polarium, a leader in energy storage solutions, has raised SEK 500 million from existing investors through the issuance of convertible preference shares. This capital injection will strengthen Polarium's position in the rapidly expanding energy storage sector and support its return to growth and profitability. The new capital will strengthen Polarium's balance sheet and ...

"The global need for smart, modular energy storage makes our solutions more relevant than ever. This combined with our customer-centric ways of working and technological leadership has enabled continued profitable growth in 2021. We are especially proud of having reached the milestone of becoming a SEK 1 billion company," says Stefan ...

Polarium provides smart and sustainable turnkey energy storage solutions built on lithium-ion battery technology, that enable customers to optimise the way they use energy and power. The company is headquartered in Stockholm, Sweden, with production facilities in South Africa and Vietnam, and customers worldwide, from Ghana to Svalbard.

Polarium Energy Optimization System är en nyckelfärdig helhetslösning som kombinerar marknadsledande litium jon-batterier med intelligent mjukvara som räknar ut när det är optimalt att lagra och använda energi.

Polarium was founded in 2015 on the conviction that safe, smart and sustainable energy storage solutions will be key to empower the transition to a truly, sustainable energy future. We are an impact business contributing to the sustainable energy transformation by enabling renewables, electrification, and intermittent power supply.

Polarium provides a three-fold product offering of battery modules, battery energy storage systems and energy optimization systems as well as associated services. Polarium's battery modules and power conversions are unbeatable in energy ...
