

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. [What to Know Before Purchasing a Portable Power Station](#)

Should you use a power station with an ups?

In the office, a main focus point would be the UPS ability so that the battery backup would kick in if there is a power outage, yet you can safely keep it plugged in at all times so that when it can, the power station with UPS can pull from the outlet's power.

What can a portable power station Power?

Portable power stations can power anything from your phone or laptop to your refrigerator or portable air conditioner--just make sure to select one with a high enough amperage output and battery capacity.

Is a portable power station a good investment?

A portable power station is a great investment and can be a real lifesaver. If you're looking to get one, we've got you covered with the best options. There are many uses for a portable power station.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Can a power station be used as a home backup system?

Larger power stations can double as home backup systems (Anker F3800, Goal Zero Pro 4000, EcoFlow Delta Pro, Bluetti AC200L), and used to run either small or entire portions of your home. For true integration, you'll need to buy a power panel kit and hire an electrician to install it.
