

What is Mali's first IPP solar project?

The EUR77 million (\$91.3 million) PV plant is Mali's first IPP solar project. Akuo Energy secured a 28-year power purchase agreement for the array from Mali's power utility, Energie du Mali-SA, in October 2015.

How much PV capacity does Mali have?

According to the latest statistics from the International Renewable Energy Agency (IRENA), Mali had installed just 20 MW of PV capacity by the end of 2019. This content is protected by copyright and may not be reused.

What is Akuo's latest solar installation in West Africa?

The latest PV installation in West Africa by France's Akuo features an agricultural and social component on a 5-hectare plot of land next to the project site. French independent power producer Akuo has commissioned a 50 MW solar plant in Kita, about 180 km west of Bamako, in the Kayes region of Mali.
