

What is energy in Belarus?

Energy in Belarus describes energy and electricity production, consumption and import in Belarus. Belarus is a net energy importer. According to IEA, the energy import vastly exceeded the energy production in 2015, describing Belarus as one of the world's least energy sufficient countries in the world. Belarus is very dependent on Russia.

Is Belarus a net energy importer?

Belarus is a net energy importer. According to IEA, the energy import vastly exceeded the energy production in 2015, describing Belarus as one of the world's least energy sufficient countries in the world. Belarus is very dependent on Russia.

Who regulates electricity in Belarus?

Belarus does not have a single independent energy regulatory authority. The Ministry of Antimonopoly Regulation and Trade is responsible for regulating electricity and heat tariffs for industrial customers, independent suppliers and all categories other than residential consumers, based on the 2011 Decree on Price Tariffs.

What does the republican unitary enterprise Belarusian nuclear power plant do?

In accordance with Presidential Decree No. 583 of December 2013, the Republican Unitary Enterprise Belarusian Nuclear Power Plant performs the functions of holder and operating organisation for commissioning, operations, performance control, lifetime extension and decommissioning of the Belarusian NPP.

How many monopolies does Belarus have?

The energy sector is dominated by 3 monopolies: Belenergo for power, Belorusneft for oil, and Gazprom for natural gas. Belarus imports most of its oil and gas from Russia at discounted prices. A second nuclear unit was commissioned in November 2023. Gas dominates the power mix (80%), followed by nuclear (12%).

Will ENTSO-E improve the reliability of Belarus's energy system?

The strategic plans of the Baltic States' and Ukraine's energy systems to join the European Network of Transmission System Operators for Electricity (ENTSO-E) energy system have reduced the external connections - and thus the reliability - of Belarus's energy system.
