

Who is building a 200 MW solar power plant in Mali?

Construction of a 200-MW solar power plant in Mali was officially launched on Friday, Mali's national broadcaster ORTM reported. The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia. It will be built by Russian company Novawind, a division of Rosatom, the Russian nuclear corporation.

Will Mali build a solar power plant in 2024?

In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide. On May 24, 2024, President Go#239;ta visited Sanankoroba in the Kati Cercle to initiate the construction of the largest solar power plant in sub-Saharan Africa, covering 314 hectares.

Will Mali develop nuclear power in 2023?

In October 2023, Mali and Russia agreed to develop civil nuclear power, according to Voice of America (VOA). The construction of two additional 200 MW solar power plants near Bamako is set to begin on May 28 and June 1. The electricity sector in Mali heavily relies on imported fossil fuels for thermal production.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

What is a Russian nuclear project in Mali?

The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia. It will be built by Russian company Novawind, a division of Rosatom, the Russian nuclear corporation. The plant is located in Sanankoroba in the Koulikoro region of southern Mali and will improve electricity supply in the West African state.

How much energy does Mali produce?

A May 2023 report by the United Nations Development Programme (UNDP) stated that in 2020, Mali had a production capacity of 1,024.92 MW, including 162 MW from self-producers - all thermal. Electricity production stood 2,577.44 GWh, comprising 69% thermal energy, 26.8% hydroelectricity, and 4.2% solar.

Amara Raja Batteries Chittoor Solar PV Park is a 50MW solar PV power project. It is planned in Andhra Pradesh, India. The project is currently in announced stage. It will be developed in single phase. Post completion of the construction, the project is expected to get commissioned in 2023.
