

The National Electric Code (NEC) allows for the placement of a breaker panel inside a bedroom. Typically an electric panel in a bedroom is located near the entry door. Electric ...

And these outdated panels don't just make you uncool like a pair of outdated bell-bottoms might. They can also be extremely unsafe. You see, electrical panels contain safety devices (either ...

Code updates happen for one main reason: safety improvement. National Electrical Code (NEC) Article 408.3 helps take electrical safety for service entrance panels to a new level. The code, ...
