

Who is SAFT Batteries?

Saft is the world leader in space and defence batteries with its Li-ion technologies, which are also deployed in energy storage, transportation and telecommunications. It is located in most countries where its customers are situated. It constantly nurtures excellence in its technical and commercial teams.

Are SAFT Batteries safe?

For over 100 years, Saft's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers. As a leading battery company, Saft's innovative, safe, and reliable technology delivers high performance on land, at sea, in the air, and in space.

Where are SAFT Batteries made?

Saft has operations in 18 countries with 15 manufacturing sites across Europe, North America and Asia. Whatever your applications, you can count on Saft batteries. and applications performances for ATEX applications. Available in AA bobbin configuration. for applications with widely fluctuating temperatures over short period of time.

Saft's on-board solutions provide reliable power, reduced weight and volume of on-board components, low maintenance and improved battery efficiency to help train manufacturers and operators work more efficiently. ... A single MSX battery can perform both backup and engine starting functions so that two onboard systems can be replaced by just ...

Field chargers. Saft's EcMC&#178; state-of-the-art chargers are rugged, multi-channel, multi-position and multi-chemistry. They are designed for easy transport and operation, can automatically recognize the type of military battery they are charging, and can simultaneously recharge a number of different batteries regardless of their state of charge or chemistry.

The Saft Xcelion 6T&#174; is a 24V rechargeable Li-ion battery system designed as a drop-in replacement for traditional lead-acid 6T batteries in military ground vehicles. It provides the power equivalent to two lead-acid batteries at 25% of the weight and 50% of the volume. The Xcelion 6T&#174; leverages Saft's unique Super-Phosphate&#174; lithium iron ...

Reliable Saft Ni-Cd battery solutions for power plants backup. Saft nickel battery solutions provide backup power to power plants to ensure the continuous, uninterrupted operation of generator units, emergency lighting, critical safety ...

You can also ask for restriction of the data, portability of the data and/or make a claim to the CNIL (the French data protection agency). For any request please send it to [GDPR@saft](mailto:GDPR@saft) or to the following address: Saft Groupe SAS Communications Department 26, quai Charles Pasqua 92300 Levallois-Perret - France Find

out more

**Features & Benefits.** Constructed in robust and reliable Saft NiFe® pocket plate, our block nickel batteries function in a wide range of temperatures, resist electrical abuse, shock and vibrations and need only basic maintenance. This ensures a low total cost of ownership (TCO) over a life cycle that can last 20 years or more.

The battery is based on VES16 space cells designed for LEO applications. This battery is sized for low power needs, such as microsats and nanosats, and can be used as a building block and assembled in serial and parallel for higher energy requirements. ... Saft Groupe SAS Communications Department 26, quai Charles Pasqua 92300 Levallois-Perret ...

**Compact.** Les nouvelles batteries au nickel Compact de Saft permettent de rationaliser l'espace et de réduire les budgets de maintenance des sites industriels. La nouvelle gamme de batteries de secours au nickel est conçue pour supporter les systèmes critiques dans des installations industrielles éloignées et difficiles d'accès

KPL, KPM, KPH vented pocket plate nickel batteries are IEC 60623 and IS 10918 certified and available in translucent polypropylene cases. Technical Specifications. Saft Urja - KPL - Long rate performance. 11 Ah - 1550 Ah. ...

Saft has been manufacturing batteries for more than a century and is a pioneer in lithium-ion technology with over 10 years of field experience in grid-connected energy storage systems. Customers turn to us for advanced, high-end ESS solutions for demanding applications. Our focus on safety, reliability, performance and long life in even the ...

**Beyond military vehicles:** Saft's Xcelion 6T® battery provides critical power in remote locations  
Customer case study Download (English) Illuminating the Path to a More Electrified Future Customer case study Download (English) Inquire Now. To ensure we can respond as efficiently as possible. Please complete this form which will be delivered ...

**Features & Benefits.** The Compact maintenance-free nickel batteries are designed to support essential control systems and other critical equipment in remote and hard-to-access locations in offshore oil and gas, utility, manufacturing, and rail trackside sites.. Manufactured in Valdosta, GA (USA), the Compact nickel battery has a small footprint and are up to 30 percent lighter than ...

Saft's new ArroK Li-ion batteries power the way to electrification for industrial off-road vehicles. 17/06/2021. Preparing for the new EU Batteries Regulation. 17/06/2021. The power behind Saft's eco-design efforts. 03/09/2020. PSA and ...

Saft's nickel battery product ranges deliver highly reliable and efficient energy storage in off-grid schemes,

from the point of production through transmission and distribution to consumption, and is ideal for Sub Saharan African and emerging economies across Asia, where much of this demand will come from.. Storing renewable energy with Saft's off-grid Ni-Cd battery solutions

Saft Groupe S.A., Paris, France, has delivered Uptimax maintenance-free nickel batteries to provide essential backup power for electronic monitoring, mechanical braking, pitch control and grease supply systems at the Badamsha wind farm in the remote and exposed steppe of the Aktobe region of western Kazakhstan. In 2021, the Badamsha wind farm will generate ...

Compact. Les nouvelles batteries au nickel Compact de Saft permettent de rationaliser l'espace et de réduire les budgets de maintenance des sites industriels. La nouvelle gamme de batteries de secours au nickel est conçue ...
